8/17 9 am - 12 pm Whittier Elementary Computer Lab

8/23 9 am - 12 pm Lowell Elementary Computer Lab

Working with Digital Images

10

Use Photoshop Elements 2.0 to resize pictures, edit and enhance the photos to save those "Kodak moments", and prepare your pictures for print and web publishing. (Need Photoshop Elements program)

Session Details:

Class online— must be completed by August 31

* For these classes to be of value to a teacher they should have access to an installation of Moodle on a server or find a free source to host their Moodle site.

Google Quick Start **

3

Google Docs is a perfect tool for classroom collaboration. You can create research groups so students can share their findings easily at home and school or work on group projects together or do peer review. You will learn how to create spreadsheets, documents, presentations and surveys for your classroom as well as how to share finished products.

Session Details:

7/21 9 am - 12 pm Penny Creek Elementary Computer Lab

8/16 9 am - 12 pm Lowell Elementary Computer Lab

8/25 12:30 pm - 3:30 pm Lowell Elementary Computer Lab

Creating a Student Portfolio **

3

Portfolios can serve as a vehicle for enhancing student awareness of the processes and strategies involved in writing, solving a problem, researching a topic, analyzing information, or describing their own observations. Electronic portfolios that use digital storage processes allow students to present information, sound, motion, and color. Learn how you can use Google Sites to have students create a portfolio that can be private or shared with a limited audience.

Session Details:

7/21 12 pm - 3 pm Penny Creek Elementary Computer Lab

8/16 12:30 pm - 3:30 pm Penny Creek Elementary Computer Lab

8/25 9 am - 12 pm Lowell Elementary Computer Lab

** For these classes to be of value, a teacher should have access to a school Google account or their own Google account. Teachers can set up a Google group account for their class by going to <http://groups.google.com/>
